Knowledge Is Power

The truth that a body without knowledge is like a house without a

foundation has been generally accepted. **It tells us that** knowledge is power in modern life.

Owing to the fact that we are living in a competitive society, we should arm ourselves with up-to-date knowledge so as to keep up with the development of the world. Many facts prove the importance of knowledge. For thousands of years, human beings have used knowledge to improve their life and change the world. Farmers use knowledge to feed the growing number of population, workers apply knowledge to promoting industrial modernization and scientists put knowledge in achieving new breakthroughs.

As is mentioned above , knowledge becomes more important than before. It is necessary for people to learn more to adapt to the constantly changing society. As the masters of our country, **we desperately need to** make efforts to acquire the cutting-edge knowledge.
